SUBJECT: National student housing needs survey 2024

Dear student,

As a student, you want pleasant and affordable housing in the city where you study. This may sound simple, but things can work out differently in practice. If you want to have a place of your own in your university city, you are often faced with long waiting times, high rents, and rooms that are too small. The student housing providers in the Netherlands want to do something about this. They want to build affordable student housing in areas where you would be happy to stay and where your housing needs are met. However, in order to realize this, they need your input.

Survey

This survey is being conducted to find out the number of future students and their choice of university city as well as their housing needs. This survey is being carried out by student housing providers in collaboration with the Ministry of the Interior and Kingdom Relations (BZK), Universities of Applied Sciences and Research Universities. If you want to contribute to achieving more and better student housing, please participate in the survey.
